

Intermediate Training Plan

Welcome

Hello everyone,

Welcome to training with Cigala cycling.

I'm glad you have chosen me to help you get fitter for the Ring of Beara.

My goal is not just to make you stronger but also to provide a fun experience in the next 12 weeks along with giving you some of my best advice for on and off the bike.

In the next 12 weeks, we will focus on different areas of training to ensure on the event day, you will be ready. We will increase volume and intensity gradually.

I am here to help achieve your goals using the latest cutting-edge technology, science and support blended with my 25+ years experience in the sport, between racing all my life and coaching for over a decade thousands of athletes from different disciplines.

I am a perfectionist and obsessed by performance by nature. My experience in coaching goes beyond science and books; it is taken to the next level by having a full understanding of the physical and physiological aspects of being an athlete.

If at any time, you wish a personalised training plan or simply have any questions, please don't hesitate to contact me, I am always happy to help.

#TrainSmarterRideFaster

Safe cycling,
